All projects are harmoniously incorporated into the surrounding natural environment and local architectural style, abiding by our Group’s comprehensive green practices and local community development philosophy. We are proud that excellence is the key principle guiding our growth in the years to come.

Stavros K. Mitsis
Managing Director | Mitsis Group
As Greece’s largest privately-owned hotel chain, Mitsis Group has been a tourism pioneer for over 45 years now, making its own mark on Greece’s tourism industry, driven by a customer-centred philosophy and the promise of an unparalleled holiday experience.

With 20 city, beach and resort hotels of 4* and 5* and 13 Spa and thalassotherapy centers in our portfolio in Athens, Crete, Kamena Vourla, Kos and Rhodes, we aspire to stand out as the preferred portfolio of hotels & resorts in Greece, offering excellent service, great locations, impeccable facilities, sophisticated dining and a broad spectrum of options for our clientele, all in a sustainable and responsible manner.

We bring to life enriching experiences for our guests, making the most of our unparalleled family touch and genuine Greek essence, always seeking to be flexible and adaptable to individual customer needs and the mindset of new generations. Transforming each visitor into a special guest is the key to our success.

For its remarkable performance, Mitsis has been awarded several prizes by local and international tour operators and travel organisations in recognition of the high quality of the services provided, its contribution to upgrading local tourism and its respect for the environment.
Mitsis Group was founded in 1976 in Greece by entrepreneur Konstantinos Mitsis, who envisioned revolutionising the tourism industry with the all-inclusive concept. The idea was to develop top-of-the-range hospitality accommodation and a rich F&B programme, all based on high quality and premium service.

The first ventures came on Kos island with Mitsis Ramira and Mitsis Norida and soon expanded to some of the most beautiful destinations in the country, under the sunlight of the Greek islands or amidst the history and culture of mythical cities – in Athens, Crete, Kamena Vourla, Kos and Rhodes.

Today, the company employs 5,000 professionals, thereby playing an important part in the country’s tourism development and employment sector. In the light of a new era in the tourism industry, we are constantly looking out for new growth prospects, creating new brands, products and services, leading technology, steering sustainability and coupling our progress with the development of the local communities and the environment in which we operate.
Entering a new era with vision and determination and aspiring to represent an innovative, social and committed brand, we continuously customise our services to better meet customers’ needs, bringing guests’ voices into every aspect of the business, attracting and retaining the right talent through internal culture, tapping into local communities in an authentic way and creating a brand that stands out through time.

Under the slogan “Create your own story”, our brand philosophy aims to capture the very purpose of our existence: to offer a world of delightful premium-quality holiday experiences, where you can embrace your own perspective of enjoyment and fulfillment.

Our philosophy
Empathy
At Mitsis, we are warm at heart. Everything is well thought and made with care. A warm Greek family spirit makes each guest’s experience sincerely and genuinely caring and welcoming. As a premium hospitality brand, we strive for excellence in everything we do, yet always prioritising intimacy through attention to detail and understanding of individual needs.

We want people to feel the pleasure and comfort of being treated and welcomed with a spirit of warmth and generosity. We aspire to create relational bonds in our hotels in order to foster a feeling of belonging and make our guests welcome the caring spirit.

Adaptability
We are multi-faceted. We show a natural ability and willingness to accommodate our offering to satisfy and fulfill individual customer aspirations, being relevant to the mindset of new generations and all age segments.

We want people to feel the richness of their own transformation in an experience lived to the fullest.

We make sure that our touchpoints are adaptable to consumer needs and feelings and invite our guests to always seek fulfillment in our hospitality offering.

Surprise
We are insightful. We aspire to go beyond what is established and expected, capturing the hearts and minds of the customers, delighting them with the joys of premium service and attention to the smallest of details. We want people to feel the joy to express freely their vibrant feelings.

So, we invite our guests to explore new ways of enjoyment and live their holidays with enthusiasm.

Our values
Mitsis is much more than just a family name. It’s the brand of our premium hotel chain. More than just a logo. A Sensation.

We are the sum of all the truly engaging, multi-faceted and meaningful sensations that you experience and come back for, each and every time you are with us. We are passionate about offering you the finest of Greek hospitality. We are committed to being adaptive to your needs and preferences, and doing so every time you are with us. We are enthusiastic about bringing to you what you treasure most to create the memories of a lifetime.

We are Mitsis.
Our loyalty programme, Storytellers by Mitsis, aims to reward our loyal guests and make them feel even more special. Celebrating over 10 years since its launch and with over 190,000 active members, Storytellers’ loyalty programme serves as the entry point for the Mitsis experience, the point where everything begins!

Catering to the modern and evolving needs of our valued guests, the scheme is structured into four tiers of Learner, Author, Poet and Mentor, with qualification criteria based on booked room nights or money spent on various services and charges. Much like the craft of storytelling, we believe in the magic of experience and the value of a tale worth telling. Members can unlock a series of exclusive benefits that correspond to their specific tier, allowing them to spoil themselves with new indulgences.

Storytellers by Mitsis members can earn points from hotel stays, concierge services, food and beverage expenses and extra room charges, which can then be redeemed to unlock free holidays and exclusive on-site benefits including, among others, special gifts, spa privileges, room service, wine-tasting experiences, priority check-in and late check-out.

More rewarding than ever, Storytellers by Mitsis fosters strong community bonds, while all members are welcome to elevate their stay and create their own vacation stories that last a lifetime.
Committed to our responsible operation and the goal of sustainable hospitality, our CSR programme ‘A story of change’ is built upon the 5 key thematic pillars ‘Committed to our surroundings’, ‘Enchanted with our Greek history’, ‘Enriched by everyone’, ‘Amazed with new opportunities’ and ‘Concerned about the planet’.

The programme exemplifies our Group’s values and aspiration to act as a role model for sustainable tourism development in the country, contributing 5% of our annual net profit to social and philanthropic initiatives.

In recognition of our continued sustainability efforts, we have received a series of awards and certifications for all our hotels, including Bike Friendly, Blue Flag, Green Key, ISO 14001, ISO 22000 and Travelife Gold Certification, as well as our Group’s distinction in the ‘Most Sustainable Companies in Greece’ by the QualityNet Foundation.

Mitsis also publishes its annual CSR Report, which contains the sum of the Group’s social contribution and environmental practices.
